

Ökostrom-Urkunde

Süwag Vertrieb AG & Co. KG certifies that

Metallux AG

according to the supplementary agreement to the electricity supply contract
for the delivery year 2023 is supplied with 100% clean green electricity
at the following consumption point:

Metallux AG
Robert-Bosch-Str. 29
71397 Leutenbach

The green electricity comes from TÜV SÜD-produced
certified European hydropower plants.

As a green electricity customer of Süwag, you relieve the environment with an average consumption
of 1,325 MWh per year by around 464 t of CO₂ compared to the
average electricity generation mix in Germany in 2021.

Frankfurt am Main, den 21/12/2022
